

STUDENT ASSISTANCE COUNSELOR

Responsibilities:

- Assist with the provision of in-service training of school district staff concerning substance abuse issues and other state-mandated topics including suicide, physical/sexual abuse, sexual harassment, and bullying;
- Assist the district in revising and implementing substance abuse policies and procedures, as well as other policies including suicide, physical/sexual abuse, sexual harassment, and bullying;
- Coordinate the implementation of programs and events offered in the district that are related to alcohol and drug prevention (DARE, skill-building programs, motivational speakers, peer leadership) as well as programs and classroom presentations on suicide, physical/sexual abuse, sexual harassment, bullying, and other related topics.
- Serve as the Coordinator for at least one High School student club.
- Serve as an information resource for substance abuse curriculum development and instruction;
- Provide counseling services to pupils regarding substance abuse and other behavioral or mental health issues; (since this is a big part of the job, and not many others in the district can do it, maybe this and the next one should go higher on list?)
- Refer students and families to appropriate community resources for ongoing behavioral health treatment;
- Collaborate with family members to address academic, behavioral, social, and mental health issues
- Collaborate with other faculty during Intervention and Referral Services, Child Study Team and "504" meetings;
- Participate in individual case conferencing with teachers, parents, guidance counselors, child study team members, and administrators;
- Participate in Municipal Alliance meetings and maintain an on-going dialogue with local law enforcement officials and other community agencies.

Qualifications:

- Maintain current Department of Education certification as a Substance Awareness Coordinator
- Familiarity with common drugs of abuse and their related symptoms as well as response procedures;
- Knowledge of local and community resources that are available for the prevention, intervention and treatment and rehabilitation of alcohol and drug problems;
- Understanding of the legal guidelines for the implementation of substance abuse policies;
- Clarity regarding confidentiality and requirements for implementation;
- Ability to interview students suspected of being under the influence and assess need for immediate intervention;

SAC description

The Student Assistance Counselor (SAC) maintains an important and effective place in the public schools. The SAC is uniquely positioned to provide both individual and school-wide services that directly impact on classroom instruction, behavior management, student safety, family support, and community relations.

Direct services include individual student assessment, counseling and referral, and student-specific input and collaboration with other faculty during Intervention and Referral Services, Child Study Team and “504” meetings, as well as individual case conferencing with teachers, parents, guidance counselors, child study team members, and administrators.

School-wide services include development and adherence of policies (and facilitation of in-service trainings) on state-mandated topics (substance abuse, suicide, physical/sexual abuse, and sexual harassment policies). The SAC is equipped to develop and implement school crisis response plans in the event of catastrophic emotional events that could impact on multiple students. The SAC acts as a liaison with community agencies as a regular participant in Municipal Alliance meetings and on-going communication with local law enforcement officials.

The New Jersey Administrative Code (§18A:40) requires policies for suspicion of substance use among students. This policy is predicated on a knowledgeable staff—both in terms of familiarity with common drugs of abuse and their related symptoms, as well as response procedures. The SAC is specifically trained in all mandated subcomponents of these statutes, including staff training on current trends, signs and symptoms of abuse, knowledge of local and community organizations that are available for the prevention, early intervention, treatment and rehabilitation of individuals who show symptoms of substance abuse, legal guidelines for the implementation of substance abuse policies, and the ability to interview students suspected of abuse in order to assess a student’s current level of drug/alcohol involvement.
